COURSE SYLLABUS

EDUC 635
TEACHING SCIENCE IN THE MIDDLE SCHOOL

COURSE DESCRIPTION
Contemporary methods and research for teaching science to middle school students.

RATIONALE
This course is designed to help middle school teachers improve the skills necessary to effectively teach science in a God-centered manner.

I. PREREQUISITE
For information regarding prerequisites for this course, please refer to the Academic Course Catalog.

II. REQUIRED RESOURCE PURCHASE
Click on the following link to view the required resource(s) for the term in which you are registered: http://bookstore.mbsdirect.net/liberty.htm

III. ADDITIONAL MATERIALS FOR LEARNING
A. Computer with basic audio/video output equipment
B. Internet access (broadband recommended)
C. Blackboard recommended browsers
D. Microsoft Office

IV. MEASURABLE LEARNING OUTCOMES
Upon successful completion of this course, the student will be able to:
A. Analyze the major concepts in life, physical, and earth science.
B. Use developmentally appropriate strategies to design and deliver instruction in science.
C. Discuss methods to provide active inquiry experiences in the teaching of science by using various questioning skills and developing science process skills.
D. Design a unit that will focus on diverse students which will promote their engagement in the schooling process, especially science and mathematics.
E. Evaluate important areas of educational policy issues and professional development from a biblical perspective.
V. **Course Requirements and Assignments**

A. Textbook readings and lecture presentations/notes

B. Course Requirements Checklist

   After reading the Course Syllabus and Student Expectations, the student will complete the related checklist found in Module/Week 1.

C. Discussion Board Forums (4)

   Discussion Boards are collaborative learning experiences. Therefore, the candidate will complete 4 Discussion Board Forums in this course. The response to the discussion board question posed must contain at least 200 words and be posted in a new thread of the corresponding forum. Candidates must reply with at least 150 words each to 3 classmates’ threads. (MLO A, B D, E)

D. Literature Review Assignments (2)

   The candidate will complete 2 Science Literature Reviews designed to acquaint yourself with teacher-oriented literature in education. The candidate will prepare a 2-4-page typed report for each article including a summary of the main points and a reaction or analysis that includes a reflection of how one might use this information as a science educator. The summary of the paper will state how important the article is to the field of education. Each review must include a title page and reference page and must be in APA format. The topic reviews must be submitted via SafeAssign. (MLO A, D, E)

E. Chapter Assignments (2)

   The candidate will read the assigned chapters and submit a detailed summary of the chapter assignments completed. There is no need to type out the questions. All Chapter Assignments will be submitted in a single Microsoft Word document. (MLO A, D, E)

F. Science Experiment

   The candidate will conduct a science experiment in 2 steps throughout this course:

   1. **Science Experiment: Proposal**
      The candidate will complete the first few steps of the Science Experiment including the problem/question, prior knowledge/research, prediction/hypothesis, and plan/procedure. (MLO A, C)

   2. **Science Experiment: Final**
      The candidate will complete an experiment by submitting data collection, data analysis, and inference/conclusion in addition to the Science Experiment: Proposal. The Science Experiment: Final will be a total of 5–7 pages (excluding the title page and reference page). (MLO A, C)
G. **Electronic Vocabulary Notebook**
The candidate will complete an electronic vocabulary notebook throughout the course. Each defined word will have the definition and a simple but impacting visual of that definition. A provided template will be used to compile a notebook of at least 10 unfamiliar science vocabulary words and definitions. (MLO A, D)

H. **Integrated Lesson Plan**
The candidate will an extensive, integrated lesson plan for a science unit. Each lesson plan will be based on the 5 E’s Learning Cycle and composed using the Lesson Plan Template. (MLO A, B, C, D)

VI. **COURSE GRADING AND POLICIES**

- D = 700–739
- D- = 680–699
- F = 0–679

C. **LiveText Submission Policy**

All LiveText assignments must be submitted to Blackboard and LiveText in order for the candidate to receive credit. **LiveText Submission Exception:** Candidates pursuing the following programs: M.Ed. in Higher Education, Ed.S. in Higher Education Administration, the Ph.D. in Education, and the Ph.D. in Higher Education Administration, are not required to submit this assignment in LiveText, but must submit this assignment in Blackboard.

D. **Disability Assistance**

Candidates with a documented disability may contact Liberty University Online’s Office of Disability Accommodation Support (ODAS) at LUOODAS@liberty.edu to make arrangements for academic accommodations. Further information can be found at www.liberty.edu/disabilitysupport. If you have a complaint related to disability discrimination or an accommodation that was not provided, you may contact ODAS or the Office of Equity and Compliance by phone at (434) 592-4999 or by email at equityandcompliance@liberty.edu. Click to see a full copy of Liberty’s Discrimination, Harassment, and Sexual Misconduct Policy or the Student Disability Grievance Policy and Procedures.
