COURSE SYLLABUS
WRSP 645
THE ROLE OF THE PASTOR WITH THE WORSHIP LEADER

COURSE DESCRIPTION
This is a study of the relationship between the pastor and minister of music/worship leader in a local church. Clarification of the biblical role a pastor has as “the worship leader” of his congregation is discussed. Responsibilities pastors and ministers of music/worship leaders have to the gospel ministry are defined and articulated. Leadership models are investigated in the light of team building and staff management. Practical application is made through class and small group case studies, interviews, on-location observations, and personal evaluation.

RATIONALE
Worship is at the heart of everything we are and do as Christians. Even though the minister of music/worship pastor is charged with the responsibility of executing and facilitating worship in the church service, the senior pastor is actually the chief worship leader in a local church. The people’s response to, appreciation of, and participation in worship will be in direct proportion to the senior pastor’s commitment to worship. This principle is the driving force behind any successful church known for its worship ministry.

Historically, the relationship between the pastor and minister of music/worship leader has been mixed with success and failure. There needs to be an understanding of the unique role pastors have with their worship leaders. This is key to building strong, biblically based worship ministries. The pastor and worship leader need times of training, teaching, encouraging, and edifying each other in their gifts and individual tasks, together. Thus, they can learn the basics of building relationships on each other’s giftedness, cast vision and communicate strategy for ministry together, and build an organizational structure to achieve those goals.
